

# Tolcylen™

## ANTIFUNGAL SOLUTION

### Tolnaftate 1% and undecylenic acid 25%:

Can prevent and cure fungal infections and act as a cleansing/emulsifying agent and organic preservative

### Urea, lactic acid and propylene glycol:

Softens, thins, and lightens brittle and discolored nails while acting as a penetrating agent for the other ingredients

### Jjoba oil and vitamin E:

Moisturizes and revitalizes nails, while promoting healthy nail appearance and growth

**EBM Medical is the exclusive partner for non-office dispensing physicians.**

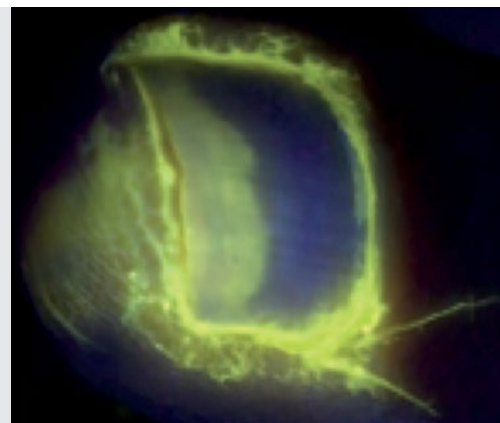

## ALL-IN-ONE RENEWAL KIT

### INCLUDES:

- Antifungal/Nail Renewal Solution (brush applicator with flow restriction)
- Antifungal Skin Cream
- Antimicrobial Shoe Spray

The image to the right features Tolcylen Antifungal/Nail Renewal Solution infused with fluorescein as seen under black light. This still image illustrates how well a small amount of this low surface tension, low molecular weight solution quickly wicks into gaps in and under the fungal nail, as well as saturating the folds and cracked skin areas surrounding the nail.

## THE TOLCYLEN™ DIFFERENCE

- Maximum nail plate penetration
- Combination therapy eliminates the need for multiple products
- Applicator effectively dispenses medication under and around the edges of the nail
- Alcohol base eliminates need for seed oils requiring artificial preservatives
